

Mandatory Reporting On-line Training Instructions

The Mandatory Reporting law is a Colorado State law; Title 18, Section 6.5, C.R.S. This on-line training will show you how to identify and report abuse, neglect, and exploitation of at-risk elders and at-risk adults with intellectual and developmental disabilities. Training provided by: Colorado Adult Protective Services.

You will be required to show proof of completing the training and allowed to print or capture a screen shot of your scores when you complete the training. (Press "Control P" if you wish to print out the full report.) **Please route a copy of your score sheet only along with your signed Mandatory Reporting Statement of Understanding** to Jessica Stewart in HR at jstewart@the-ic.org

The following link provides access to a self-paced training. CTRL + Click on the link below to complete the training online.

<https://www.coloradoaps.com/about-mandatory-reporting.html>. You will be directed to a page that looks like the screenshot below. Click on "on-line training module" in the second paragraph. This will take you to the on-line training.

Mandatory Reporting

Please note: This website is not a reporting site for the Mandatory Reporting law (CRS 18-6.5-108). Please contact the [law enforcement agency](#) where the client resides to make a report.

Certain professionals are [required by law](#) to report physical abuse, sexual abuse, caretaker neglect, and exploitation of at-risk elders and at-risk adults with intellectual and developmental disabilities (IDD).

An interactive [on-line training module](#) for mandatory reporters is now available. If you need proof that you completed this training, you will be able to print or capture a screenshot of your scores at the end of the training.

Mandatory reporters include:

- Any person providing health care or health-care related services including: general medical, surgical, nursing services, nursing specialty services, dental, vision, pharmacy, chiropractic services, physical, occupation, musical, or other therapies.
- Staff of hospital and long term care facilities engaged in admission, care, or treatment of patients.
- First responders, including: emergency medical providers, fire protection personnel, law enforcement offices, any person
