

HOME HEALTH CARE

Since 1987

We offer people with disabilities a variety of home health care services designed for their unique needs. Clients may request a family member to be their caregiver, or they can choose one of our available skilled caregivers. Our team of professionals works one-on-one with each client and their family to develop a personalized health plan.

For more information, contact the Home Health Department at 719-471-8181, x107.

Colorado Springs, CO 80903

ABOUT OUR SERVICES:

- We provide both physician-directed and client-directed services.
- Our caregiver team includes RNs, LPNs, PTs, CNAs, PCAs, PCWs, and Homemakers.
- We provide extensive training for all caregivers to provide excellent care.
- Our qualified caregivers promote independence and inclusion so you can stay in your community.
- Many Independent Living services are available at no cost, such as assistive technology and support groups.

Our award-winning CNA Training Program is here for you if you're looking to:

- Become a Certified Nurse Aide (CNA)
- Fill a prerequisite as a nurse-in-training
- Train to take care of a family member
